November 15 2018

Data management in clinical research

Training session

This pilot training course, designed for clinical research professionals who are not data management experts, will raise awareness on the new challenges raised by the digital revolution in clinical research. Presentations and discussions will cover a broad spectrum of issues related to data management, sharing, reuse, and analysis.

Audience

This training course targets clinical research professionals (investigators, project managers, etc.), without specific expertise in data management, from the public and the private sector.

Key points

- New data challenges in clinical research
- Clinical trial data management and data center certification
- Clinical trial data sharing
- Multimodal data management

Highlights

- Speakers from various backgrounds, with shared and complementary expertise and strong hands-on experience
- Emphasis will be given to the discussion with the participants who will have the opportunity to raise specific questions beforehand (through the online registration form)
- Demonstration of a multimodal data management tool

Partners

Shared services for life-sciences

CORBEL is a cluster project supporting collaboration across the life sciences and medical research infrastructures, to develop common tools and services.

This project receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 654248

European Clinical Research Infrastructure Network

ECRIN is the research infrastructure developing tools and providing operational services to multinational clinical research in Europe (www.ecrin.org)

French Clinical Research Infrastructure Network

F-CRIN is an infrastructure which provides operational and scientific expertise to national and multinational clinical trial project holders.

Date: 15 November 2018 – **Location:** ECRIN (Salle du Conseil) - 5-7 rue Watt 75013 Paris
Registration is free but mandatory: online registration form
Contacts : serena.battaglia@ecrin.org (ECRIN) | allan.wilsdorf@inserm.fr (F-CRIN)

Data management in clinical research

09:00 - 09:30 > Welcome coffee

Introduction: clinical research and the data challenge
- Jacques Demotes, ECRIN

Clinical trial data management: requirements, data standards, data management systems
- Steve Canham, ECRIN

Coffee break

The ECRIN data centre certification programme
- Christine Tonéatti, ECRIN

13:00 - 14:00 > Lunch

Clinical trial data sharing
- Christian Ohmann, ECRIN

Coffee break

Multimodal data management in clinical and translational research: multi-omics and imaging data management (Tool demonstration)
- Rita Azevedo, Lygature

17:00 > End of session

Registration is free but mandatory
