

External Scientific Review

Please score each of the following evaluation criterion:

Note that the overall threshold for acceptance of the proposal is 8 out of 12 and that a too low score in any criterion (a red mark below) will suffice to reject the proposal.

1. Scientific Excellence

- 6 Internationally Outstanding
- 5 Excellent
- 4 Good
- 3 Average
- 2 Satisfactory
- 1 Not Competitive

2. Benefit of the access to several RIs

- 3 High benefit
- 2 Average benefit
- 1 No obvious benefit of accessing multiple RIs

3. Expected impact

- 3 Great impact
- 2 Average impact
- 1 Little impact

The sum of my previous scores is

Help text: Please calculate the sum of the three scores on scientific excellence, benefit of the access to several RIs and impact. In case the overall score is higher than 8, you can select if you would like to accept the proposal as it is or if you require additional information.

1. higher than 8 and the project should be accepted for CORBEL access
2. lower than 8 and the project should not be accepted for CORBEL access
3. higher than 8, but the project requires additional information or improvements before the technical feasibility check can take place

Please comment on the project and briefly justify your decision:
